# User's Manual

⚠ **Warning**

- When swimming ,please do use the swimming waterproof earbuds.
  Please choose two or three steps earbuds according to your wearing comfort.

- For your safety ,please don't use the player when driving, ridding a bicycle or jogging on the road, and be careful when crossing the street if the volume is high.

■ Hold press power key for 4 seconds to power ON/OFF

■ When diving or swimming forward very fast, the player may drop down because of huge force of impact, these problems can be solved if you put your swimming goggles against the connecting rod at the point near year.   Stable wearing method:Please put swimming goggles against the connecting rod at the point near ear.

open   close   **Lock**

Special attention:The USB cover has positive and negative directions. When you closed the USB Cover, please make sure that the word "Front " on the cover is up.Please close the USB cover and according to instruction on the manual. Or water drops may seep into the player because of damage of the USB cover.

■ The volume may comes down when you swim ,it's because it forms a thin water film on the waterproof net or speaker film. Please take off the waterproof earbuds，blow off the water film from the waterproof net which is at the front end of the speaker tube, meanwhile squeeze the waterproof earbuds so that the water can come out from the earbuds ,you can also put the player in dry place for more than 10 hours air drying, the volume will be normal.

1.It forms a thin water film on the waterproof net.

2.Take off the waterproof earbuds, blow off the water film.

3.Squeeze the earbuds to let the water come out.

■ **Basic Functions**

- Waterproof Sport MP3, IP Rating:IPX8.
- Support MP3 and WMA formats.
- USB 2.0 high-speed.
- Built-in rechargeable lithium battery 190mAh,operating time 10hours.
- Shuffle function play

First the product would regard the "shuffle function play" as the standard function.If you need the "order play function "press the pause button,and next press the "previous" button,then the indicator light would light always.It means that it come to "order play" function.If you need the shuffle function please press the pause button,then press the "next "button.After that the indicator light flashes slowly, it means that it turns to shuffle function.This panel has the memory function.That is While when you power off it, it would keep the function style as the time you power off the product. Such as when you powed it off, the product played in shuffle function, then next time you powered it on, it would play in shuffle function as well.

■ **Precauciones**

- Do not use the player in an extreme environment, the player may not work on temperature over 40ºC or below -5ºC,or in very dry environment.
